Maths addition worksheets for grade 4. Sums of addition for class 4. Class 4 addition word problems. Maths addition and subtraction worksheets for grade 4.

Welcome to our 4th Grade Math Worksheets area. Here you will find a wide range of free printable Fourth Grade Math Worksheets, and Math activities your child will enjoy. Take a look at our decimal place value sheets, our mental math sheets, or maybe some of our equivalent fraction worksheets. Perhaps you would prefer our statistics worksheets, or how to measure angles? This page contains links to other Math webpages where you will find a range of activities and resources. If you can't find what you are looking for, try searching the site using the Google search box at the top of each page. Here are the standards for the end of the year for 4th Grade. Understand and use place value up to 1 million. Read and write multi-digit whole numbers using base-ten numerals, number names, and expanded form Use place value to round any whole number to any place. Find factor pairs for any whole number up to 100. Find out if any number up to 100 is prime or composite. Generate a shape or number pattern that follows a rule. Fluently add and subtract multi-digit numbers using the standard algorithm. Multiply a whole number with up to 4 digits by a single digit number. Multiply two 2-digit numbers. Find whole number quotients and remainders with up to 4-digit dividends and 1-digit divisors. Solve multi-step word problems with whole numbers and having whole-number answers Compare two fractions with different denominators and different numerators. Explain why a fraction (a/b) is equivalent to a fraction (n x a/ (n x b) using visual models Decompose a non-unit fraction into the sum of fractions with the same denominator in different ways. Add and subtract mixed numbers with like denominators. Understand the fraction a/b as a multiple of the fraction 1/b Multiply a fraction by a whole number. Express a fraction with a denominator of 10 as an equivalent fraction with a denominator of 100. Use the above fact to add two fractions with denominators of 10 and 100 together. Convert fractions with denominators of 10 or 100 into decimals and back to fractions. Solve measure problems involving converting a larger unit to a smaller unit. Convert measurements from one unit to another. Use all 4 operations to solve word problems involving a range of different measures. Make a plot line to display a data-set of units in fractions of a unit. Understand what an angle is. Measure and draw an angle accurately using a protractor. Solve addition and subtraction problems to find unknown angles. Draw and recognize points, lines, line segments, rays, angles (right, acute, obtuse), and perpendicular and parallel lines. Recognize and draw lines of symmetry in 2D shapes and figures. Classify shapes in a variety of ways using their properties. Apply the area and perimeter formulas for rectangles. On this page you will find link to our range of math worksheets for 4th grade. Using these 4th grade math worksheets will help your child to: Understand decimals; Use place value notation with tenths and hundredths; Know how to read and write numbers to 10 million; Understand place value to 10 million. Using these 4th grade math worksheets will help your child to: learn to estimate and approximate; order numbers, including negative numbers and decimals; learn how to place decimal numbers on a number line; understand and use multiples and factors, and know what a prime number is; complete the missing number to balance a math equation. Using these sheets will support you child to: count on and back by multiples of 10; fill in the missing numbers in sequences; count on and back into negative numbers. Counting in Multiples of 10 Worksheets Here you will find a range of printable mental math 4th grade sheets for your child to enjoy. Each quiz tests the children on a range of math topics from number facts and mental arithmetic to geometry, fraction and measures questions. A great way to revise topics, or use as a weekly math test or math quiz! Mental Math Worksheets 4th Grade Top of Page Using these 4th grade math worksheets will help your child to: add multiple numbers in columns up to 5 digits; add numbers in columns, including money amounts with up to two decimal places. Top of Page Using these 4th grade math worksheets will help your child to: learn to subtract numbers with up to 5 digits; learn to subtract numbers involving money with decimals with up to two decimal places. Top of Page Using these 4th grade math worksheets will help your child to: use their multiplication table knowledge to multiply by 10s and 100s mentally multiply any whole number by a single digit; multiply a two or three digit number by a two digit number. Top of Page Using these 4th grade math worksheets will help your child learn to: apply their division facts up to 10x10 to answer related questions involving 10s and 100s. divide any whole number by a single digit. Top of Page Using these 4th grade math worksheets will help your child to: apply their addition, subtraction and problem solving skills; apply their knowledge of rounding and place value; solve a range of 'real life' problems; attempt more challenging longer problems. Using the problems in this section will help your child develop their problem solving and reasoning skills. Top of Page Using these 4th grade math worksheets will help your child to: position different fractions on a number line; understand equivalent fractions; understand what a mixed number is; compare two or more fractions; begin to convert fractions to decimals and decimals to fractions. Top of Page Using these sheets will help you to: classify angles - acute, obtuse, right, reflex, straight; classify triangles - acute, obtuse, right; measure angles using a protractor; know that angles in a triangle add up to 180° plot and write coordinates in the first quadrant. Top of Page Using these sheets will help your child understand how to: read scales in both the standard and metric systems; read a scale going up in a range of fractions; halves, quarters and eighths; read a scale going up in tenths, fifes, tens, fifties, and hundreds. Using these 4th grade math worksheets will help your child to: understand area and perimeter; learn how to find the area and perimeter of rectangles and rectilinear shapes. On this webpage, you will find our 4th grade Money Challenges. These challenges involve solving money problems and are a great way for kids to develop their reasoning and problem solving skills whilst practicing their counting money at the same time. Using the sheets in this section will help your child to: tell the time to the nearest minute; become familiar with both digital and analogue times; add and subtract time intervals. Telling Time Worksheets Grade 4 (1 minute intervals) On this webpage there is a selection of printable 24 hour (military time) conversion worksheets which will help you learn to convert from 24 hour clock to standard 12 hour time, and from standard time to 24 hour time. 24 Hour Clock Conversion Worksheets These sheets will help you learn to add and subtract hours and minutes from times as well as working out a range of time intervals. Add and Subtract Time Worksheets Here you will find our selection of harder time puzzles. Time Worksheets - Riddles (harder) Top of Page Using these 4th grade math worksheets will help you to: draw and read bar graphs with increasingly complex numbers; read, interpret and draw line graphs; find the mean of up to 5 numbers; find a missing data point when the mean is given. find the median of a set of data. Top of Page The puzzles will help your child practice and apply their addition, subtraction, multiplication and division facts as well as developing their thinking and reasoning skills in a fun and engaging way. Our 4th Grade Math Games Ebook contains all of our fun maths games, complete with instructions and resources. This ebooklet is available in our store - use the link below to find out more! Top of Page We have started creating sets of seasonal worksheets for each grade. These sheets are great for linking to a particular topic, or doing some math that relates to the time of year. Math Christmas Activities 4th Grade For those of you who have found yourselves unexpectedly at home with the kids and need some emergency activities, we have developed some Math Grab Packs. Each grab pack is a collection of 10 worksheets covering a range of math topics (plus a game in some of the packs). They are completely FREE - take a look! 4th Grade Math Grab Packs How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. Page 2 Welcome to our 2-digit Multiplication Worksheets page. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. Within each section, the sheets are carefully graded with the easiest sheets first. These sheets are aimed at 3rd graders. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. More Double digit Multiplication Worksheets (harder) Take a look at some of our worksheets similar to these. Need to create your own long or short multiplication worksheets quickly and easily? Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills. Multiplication Math Games How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources.
